President's Message

Dear Friends and Partners,

As we approach our organization's 50th anniversary in 2028, the results of those decades of work are more visible than ever. At CHCI, we create the conditions for Latino leaders to rise, through immersive leadership programs, national convenings, and a community of alumni who carry that purpose forward long after their time with us.

The leaders who come through CHCI don't just build careers. They shape what comes next. They step into roles as advocates, policymakers, innovators, and changemakers, and in doing so, they expand what leadership looks like in America and strengthen the communities and the country we all share.

In 2025, our emerging leaders served across Congressional offices and committees on Capitol Hill, gaining firsthand experience at the center of American policymaking through our fellowship, internship, and other programs. We also convened leaders from the public, private, and nonprofit sectors at events throughout the year, and our alumni network continued to grow into one of the largest Latino leadership communities in the country. The pages that follow reflect the full scope of this year's impact in detail.

None of this happens without the sustained commitment of Members of Congress, our Board of Directors, Advisory Council, alumni, staff, and partners like you. As we near our 50th year, we remain focused on the work ahead, building on this legacy while continuing to open doors for the leaders who will define the next half-century. Thank you for being part of this journey.

Sincerely,
Marco A. Davis
CHCI President and CEO

"For 104 years, State Farm® has been guided by a simple yet enduring mission to help people manage the risks of everyday life, recover from the unexpected and realize their dreams. That commitment aligns closely with CHCI's mission to develop the next generation of Latino leaders and strengthen communities through leadership, education and opportunity.

We're proud to support CHCI's work and to stand alongside the organization as it empowers current and future leaders to make a lasting difference."
