

Developing the Next Generation of Latino Leaders®

The Graduate Fellowship Program (GFP) enhances participants' leadership abilities, strengthens professional skills, and produces more competent and competitive Latino professionals. This nine-month paid program offers exceptional Latinos unparalleled exposure to hands-on experience in a variety of public policy areas, which may include: Education, Housing, Health, Law, and STEM (with a focus on energy and the environment). Participants will complete their first-half placement in a congressional office on Capitol Hill and will have the opportunity to pursue a second-half placement that best matches their policy interest. The range of placements include: congressional offices, committees, federal agencies, the White House, national non-profit advocacy organizations, and government-related institutions. Graduate Fellows will also enhance their professional skills by producing a policy brief and organizing a policy briefing on Capitol Hill.

Applicants to the Graduate Fellowship Program must have completed a master's degree or JD within two years prior to the program start date.

APPLY NOW! www.chci.org

“Representation matters. Being in a room full of smart, influential, and powerful people that look like you will forever change you. That is what the CHCI fellowship did for me. Through working in a Congressional office, leadership training, and the access to a strong network of alumni and mentors, my career was propelled in ways I never thought possible for a child of immigrants. As a result of the learning and opportunities afforded to me by the CHCI fellowship I can continue representing the needs of my Latino community in the world of healthcare.”
